# Yamaha TF3 Digital Mixing Console

Yamaha TF3 is a 24 channels Digital Mixing Console with 48 input mixing channels, ample input capacity and hands-on control in a compact console.

## Features

- 25 motor faders (24 channels + 1 master)
- 48 input mixing channels (40 mono + 2 stereo + 2 return)
- 16 analog XLR outputs

## Description

Yamaha digital consoles have always been designed with input from leading engineers worldwide to ensure that the most efficient, intuitive operation is achieved. The highly regarded Selected Channel and Centralogic™ interfaces attest to the success of that approach. The Yamaha TF3 24-input digital console's TouchFlow Operation provides you with straightforward control that never stands between you and your music. Smooth setup and operation, practical presets and scenes, refined design, and software applications that integrate seamlessly with the entire system: these elements comprise TouchFlow Operation, a new concept in console interfaces that offers unprecedented comfort and convenience in small consoles, for a wide range of users and applications.
